IMG_6575.jpeg

A close-up photograph of the rear section of a Polaris ATV. The image shows the drive select lever, which is a black metal component with a circular gauge. Above the lever, there are two black plastic caps covering electrical outlets. To the right of the outlets is a white warning label with orange text that reads "DRIVE SELECT LEVER" and lists safety instructions. Below the outlets is a larger yellow and black warning label with the word "WARNING" in bold, followed by several paragraphs of safety text and icons. A small blue and white "400 FCS" label is visible near the lever. On the right side of the image, a large yellow and black "1000" decal is partially visible. A large, semi-transparent "ATV1000" watermark is overlaid diagonally across the center of the image.
