Two black Ford key fobs are shown resting on a blue, textured surface. The fob on the left is a standard Ford key fob with a silver button in the center and a Ford logo. The fob on the right is a more complex key fob, also with a silver button and a Ford logo, but it has a yellow tag attached to it. The tag has some text and a QR code. A silver ring is attached to the top of both fobs. A large, semi-transparent watermark "entrax" is visible across the bottom of the image.
