

IMG_2449.jpeg

IMG_2448.jpeg

A detailed view of the center console of a car. The gear shift is a black leather-wrapped lever with a silver base. To its left is a handbrake with a silver tip. Above the gear shift is a black panel with three large rotary dials for climate control, a central digital display, and several buttons for 'PASSENGER AIR BAG', 'A/C', and 'HEAT'. Below the gear shift is a 'DRIVE MODE' selector and a '12V 180W' power outlet. The overall design is modern and functional.
